

POST-PROCEDURE INSTRUCTIONS

Hysterosalpingogram (HSG)

For 24 hours, to limit risk of infection:

- Do not use tampons. Pads may be used.
- Do not have intercourse.
- Do not take baths, swim or use a hot tub. You may shower.

Contact your referring physician/provider if you experience any symptoms of infection following the HSG procedure:

- **Fever** - If fever occurs any time following the procedure, call your referring provider.
- **Abnormal Bleeding** - Spotting immediately following your exam is normal but should not last more than 48 hours.
- **Cramping** - If cramping does not subside, call your referring provider.

_____ MRN#

I, _____ have read, understood and received a copy of these HSG post-procedure instructions.
